“ The memory of a person centers on the impact they've had and leave behind in those they have touched.

*Without a doubt, our parents have the greatest influence on who we are and who we become.*

*I did not know Ann directly but in recent times learned a great deal about her from her son Bill.*

*To me Bill is a living testimony of love and compassion; traits of which I am certain were a direct result of Ann's positive influence over so many years.*

*Whether as a professional educator, or just a great personal friend, through Bill, I feel a unique connection to Ann and her legacy.*
